

MAXWELL FARM

For more than 100 years, the Maxwell family operated a working farm on the land that will soon be the premier subdivision of Maxwell Farm. The Maxwell family dedicated their land to give life to a new community within the popular town of Simpsonville. Located at the intersection of Maxwell Road and Brown Road, Maxwell Farm consists of 52 lots for custom designed homes. To ensure that Maxwell Farm displays houses of the highest quality, the developer, J. Francis Development, selected four of Greenville's best builders as the exclusive builder team. Please contact any of our elite builders to find out about lot availability and building opportunities!
